

## **Anthony Bechara**

24038 62nd way S apt 301, Kent, Washington - (206) 379-5729 - [Anthonyyn.bechara@gmail.com](mailto:Anthonyyn.bechara@gmail.com)

---

I started working for the Digital Skills for All and Rectech in Delridge, we focused on web development and game design. I have learned to work as a team and in solo projects. The games our team created earned us a space as one of 20 groups from around the country who took part in Facebook's Engineer for the Week Achievement Summit in Menlo Park, California. The event was a hackathon that brought dedicated students from across the country to Facebook headquarters to work with and ask any questions to Facebook's brightest employees!

---
